

resgrid.com

Cloud Logistics for First Responders

CLOUD SOLUTION

Access Resgrid from anywhere using a web browser or mobile app. There is nothing to install or manage locally.

COMPLETE LOGISTICS

Resgrid takes all the hassle out of managing your personnel, units, stations, calls, reports, you name it. Keep on top of your department without the pain, from anywhere.

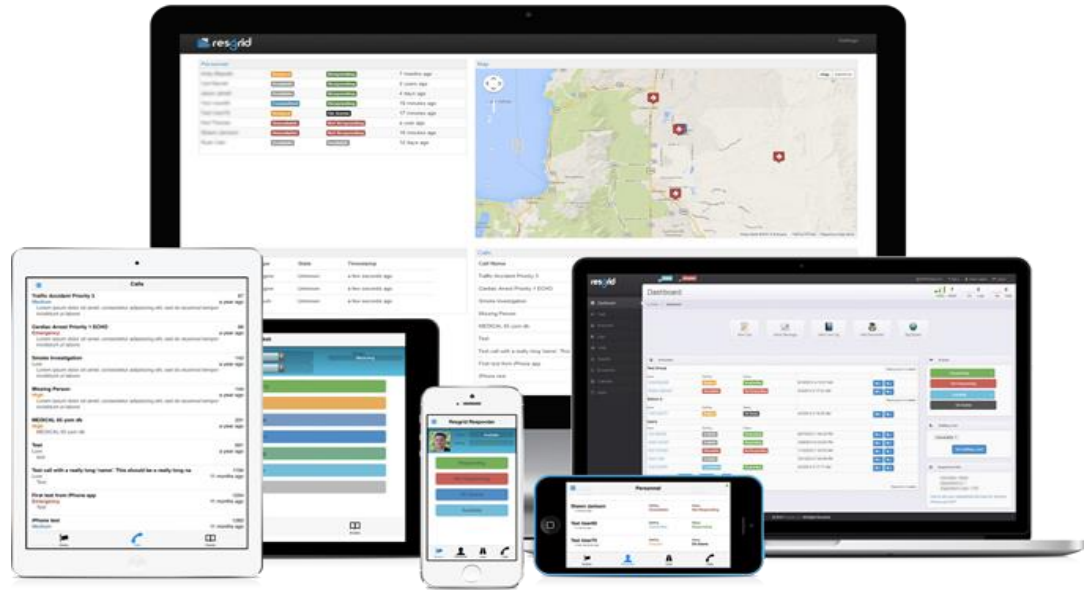

COMMUNICATION

Resgrid can Email, Text/SMS and send Push Notifications for your dispatches, alerts, callback requests and more.

GEOLOCATION

View the location of all your personnel, apparatuses, calls and other important sites (water supplies, landing sites, staging areas).

**Cost Effective
Cloud Based
Mobile Apps**

Complete solution for first responders

Coordinate personnel, apparatuses, stations, departments, information, calls and more

Personnel

See the status and staffing level of all your personnel

Units

See the location and status of your units

Calls

Relay calls from a CAD system or create new calls on the fly

Stations

Station management with calendar, notes and document sharing

Reporting

Report on calls, units, staffing, activity and much more

Mobile

Web based with easy to use mobile apps for on-the-go responses

Trusted by hundreds of departments around the world
